

# ASG MYSTERY QUILT 2023

## CLUE 3

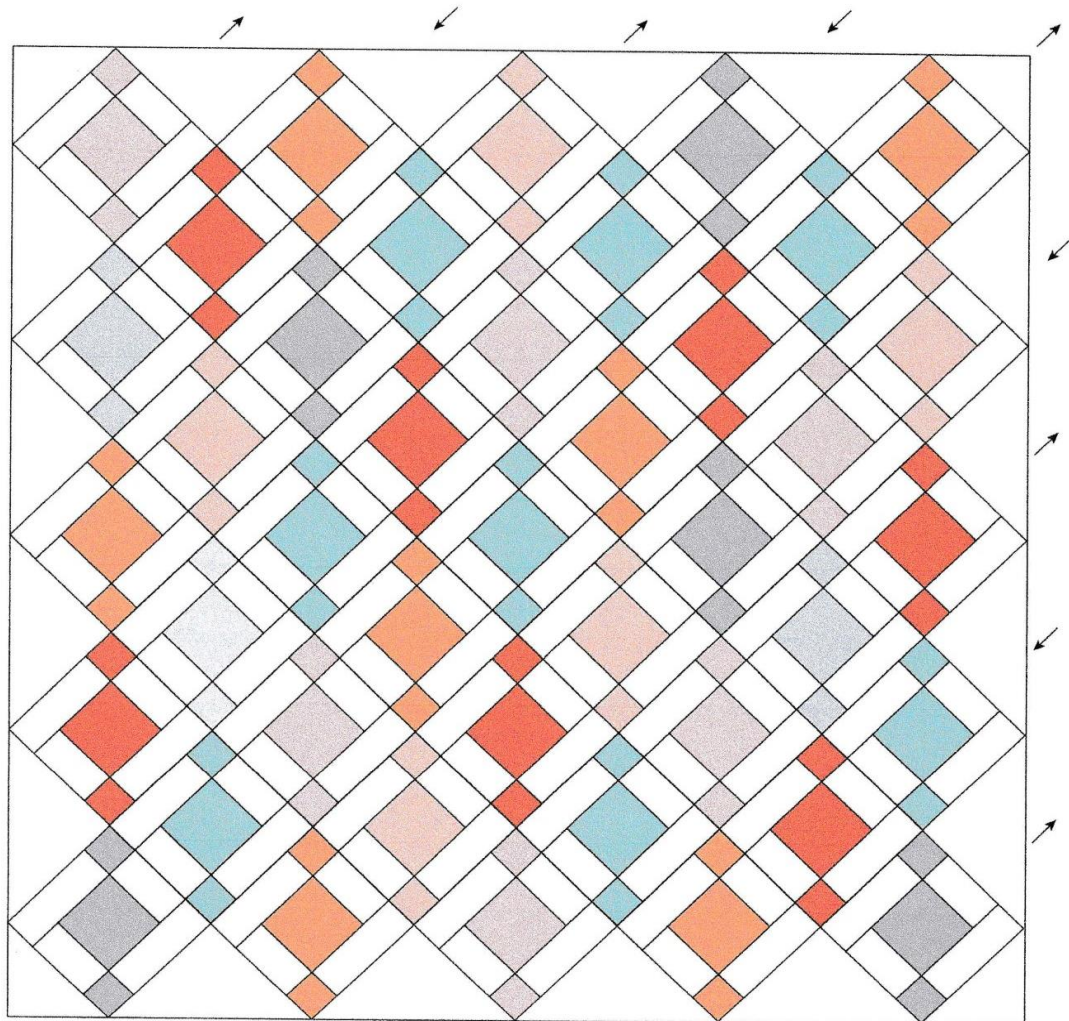

Layout your blocks and sew together according to the diagram below.

You will be sewing diagonal rows instead of straight across.

Tip: It helps to pin the pieces together so they are sewn on the correct side of the block.

Tip: Notice how the triangle pieces attach to the block. Left side is laid differently than the right side. See photo

Tip: Mark your left hand starting piece so you know how it should lay once that row is sewn and ready to attach to the next row.
