

FT WAYNE ASG 2025 MYSTERY QUILT

CLUE # 5

NOW IT'S TIME TO GRAB YOUR 10" LAYER CAKE FOR OUR NEXT SET OF BLOCKS

Referring to the diagram below, lay out your blocks and 10" print squares in 9 rows of 9, alternating your pieced blocks with print squares. Each odd row will begin with a pieced block and each even row will begin with a print square.

Sew the blocks together in rows. Press the seam allowance of all odd-numbered rows to the left and all even-numbered rows to the right. This will allow you to nest the seams and sew the rows together to complete the quilt center.

Wall Hanging:

Same as above except your print squares are 5" and you will lay out 7 rows of 7 alternating blocks and printed squares per row.
